Product Description

Light beige, liquid heavy-duty hand cleanser with skin-neutral pH value, solvent-free, perfumed or perfume- and fragrance-free

Product Properties

ULTIMO is a hand cleanser for the removal of medium dirt. Although the product has a strong cleansing effect, the skin is not affected by abrasive scrubbing agents. According to the pH value of the human skin, the liquid heavy-duty hand cleanser is slightly acidic. The dermatological compatibility of the mild surfactant combination with acyl glutamate in combination with lipid-replenishing glycerol esters is very good. ULTIMO contains the patent-registered dirt removing agent ULTIMO made of hydrogenated castor oil (wax) can remove dirt particles without affecting the skin. Furthermore, there are no residues in traps and sewers. ULTIMO is also available as perfume- and fragrance-free version which is HACCP-compliant and can be used safely for personal hygiene in the food industry in consideration of the respective application instructions
